

I live near Lexington, KY and I greatly appreciate hearing K-Love on my radio. So does my wife and two children. It is about the only station I listen to. I don't like most of the other programs. It would be a terrible thing for LPFM to displace the signal my family receives by other programing. K-Love provides a service to the public like no other. Please do not let other programing superseed what K-Love is providing. I hear K-Love in many surprising public places, including retail establishments, which shows that it is a very popular radio program in public places.
